Mood tracker design

-implement a mood tracker to take in my mood everyday on a scale between 1-10

this will output a colored output like below

where green - good day
            blue - ok (meh) day
            red - bad day

this is a console app

figuring out the padding for displaying the month

example month

30 days

first of the month is on Wednesday

first week

	S	M	T	W	R	F	S
1	X	X	X	1	2	3	4
2	5	6	7	8	9	10	11
3	12	13	14	15	16	17	18
4	19	20	21	22	23	24	25
5	26	27	28	29	30	X	X

$$\frac{30 - 5 + 1}{7} = 3.7 \rightarrow 4$$

26

math Ceiling
